MEMORANDUM FOR: Mr. Dulles

SUBJECT : NSC Report on Security Requirements for
Government Employment

1. This progress report by Civil Service on the carrying out within the Executive Branch of Executive Order 10450 (security requirements for government employment) raises no problems for us. Defense was the only agency mildly criticized.

2. The Planning Board feels that this matter no longer requires NSC consideration and can henceforth be handled through normal channels. It is recommended that you concur.
